BABY FOR YOU

(Harlan Howard)

'67 Tree Publishing, BMI

RECORDED BY MARION WORTH AND BY ANITA CARTER

Late at night when I can't sleep I'll bet you don't know I weep

For you baby for you

You love her and she loves you you'll never know what I go through

For you baby for you

It hurts to know I saw you first I loved you there and then

But while I schemed and planned and dreamed she moved in

Now I must go I don't know where someplace and forget to care

For you baby for you

It hurts to know I saw you first...
