

Harlan Howard, I Care

I care I care for you I wish you well in all you do cause I care I swer I care
I care and friend I mean if you're white or black or green
It just don't matter I care I care for you
If this cold world's gonna get warmer I've gotta do my part
I've gotta stop livin' for myself and start givin' all the love that's deep in my heart
Cause I care I care for you if you're yellow red white or blue
It just don't matter friend I care I care for you
We're all God's children friend and I care I care for you
If this cold world's gonna get warmer...
