

Harlan Howard, I'm Tired

I'm standin' on the corner of a busy street
A lookin' for your face in everyone I meet
Checkin' every honky tonk in this town
I'm tryin' to find the places that you hang around
Oh Lord I'm tired tired of living this a way
Now I've been waitin' on you baby night and day
I'm wonderin' if your love will ever turn my way
But time's runnin' out and I'm slowing down
I'm tired of bein' just another hang around
Oh Lord I'm tired tired of living this a way
[harmonica - dobro]
Now there ain't no happiness in anything I do
I found myself so lonesome when I'm not confused
What makes just a kind of girl a guy will love
You've got so many others that you're thinking of
Oh Lord I'm tired tired of living this a way
Oh Lord I'm tired tired of living this a way
