

# Harlan Howard, Take It And Go

He's giving you the eye and you don't seem to mine  
I think you're kinda proud of it and it shows  
Well if that's how you are I'm glad I learned in time  
But baby goodbye is as easy as say as hello  
Take it and go take it and go now I guess you thought that I might beg you to stay  
To take it and go take it and go I guess I didn't want it anyway  
( guitar + harmonica )  
I was all alone when you came along  
And I won't be tasting something that is new to me  
I don't wanna love at all unless it's true and strong  
If you're gonna be a problem to me alone I'd rather be  
Take it and go take it and go...  
Anyway anyway
