

# Harmful, Give It All

See the lightning stars melting over my shoes All I have to do is to get rid of you Oh, Ive taken more  
When I appeared with my great gouts of fear Out of silence she crafted something new to disappear  
Oh, what do you do when you just cant take it?!

Weve got bigger things to worry about now anything this world has to offer... I'd give it all  
Then comes the fury of the lullaby Its gonna take you away if you cry Oh, what do you do when you  
Id give it all to you... yes I do!
