

Harmful, Likewise

Neither large nor small... high or low No agreement i become less
Will you let me have these things on my side until im able to stand them... likewise
As long as weakness remains I guess well suffer all the same
Neither large nor small... high or low Worthy to be followed
Will you let me have these things on my side until im able to stand them... likewise
As long as weakness remains I guess well suffer all the same
I dont want to complain... I just want to explain... First, let me get this right
Will you let me have these things on my side until im able to stand them... likewise
As long as weakness remains I guess well suffer all the same
