

# Harry Chapin, November Rains

When November rains  
it rides the cool wind  
you need somebody holding you tight  
When November rains  
you need somebody caring  
you want somebody sharing your night  
(CHORUS)

When November rains  
that's when it all falls down  
there are clues  
When November rains  
and it's all around  
and it seems that there's nothing left 'cept the dream  
of the first sweet warm morning light  
November rains into your deep, dark night

When November rains  
midnight is calling  
the old year is falling away  
When November rains  
It's like something is greiving  
or somebody's leaving this day  
(CHORUS)

November rains,  
why don't you shine your warm sun on down  
November rains,  
why don't you keep me warm as sundown  
Why don't you rain your warm sun down,  
Down on me  
Don't leave me

When November rains  
something is needed  
Somebody is sending an echo  
When November rains  
it's too late for praying,  
it's like somebody's saying  
don't follow  
(CHORUS)
