

Harry Styles, From the Dining Table

Woke up alone in this hotel room
Played with myself, where were you?
Fell back to sleep, I got drunk by noon
I've never felt less cool

We haven't spoken since you went away
Comfortable silence is so overrated
Why won't you ever be the first one to break?
Even my phone misses you call, by the way

I saw your friend know from work
He said you feel just fine
I see you gave him my old t-shirts
More of what was once mine

I see it's written
It's all over his face
Comfortable silence is so overrated
Why won't you ever say what you want to say?
Even my phone misses you call, by the way

Maybe one day you'll call me
And tell me that you're sorry too
/3x
But you..., you never do

Woke up the girl who looked just like you
I almost said your name

We haven't spoken since you went away
Comfortable silence is so overrated
Why won't you ever say what you want to say?
Even my phone misses you call
We haven't spoken since you went away
Comfortable silence is so overrated
Why won't you ever say what you want to say?
Even my phone misses you call, by the way
