

# Harvey Danger, Medley

I tend to forget when I drink  
I'm doing it again I think  
A hand to hold an ego to flatter cause you were the wineskin and I was the bladder  
Time passes and events fall away and  
I don't think they'll hurry up hurry up  
I'm blacking out high on the vapor cause I was the typo you were the liquid paper  
Talkin over talkin over talkin the answers still the same

Discontent humiliation cause you were the theme and I was the variation  
Try to take the less frenetic  
Course of action  
Introspection diction ooohh prediction  
Breaking my heart again  
Breaking my heart
