

# Hatebreed, Bloodsoaked Memories

Those wounds have been revealed  
Clawing through this wasteland  
No emotion lives, suffocate on hope  
Swallow your last rational thought  
It tastes of every heart you've devoured  
Your veins constrict, they are choking you  
Wrapped in vanity, you're dying.  
Unveiled by searing hatred  
You gasp for life, you can't hold me now  
I've let you go, bleed into obscurity  
Clawing through this wasteland  
No emotion lives, suffocate on hope  
Swallow your last rational thought.  
It tastes of every heart you've devoured  
Your veins constrict  
They are choking you  
Wrapped in vanity, you're dying
