

Hatesphere, Seeds Of Shame

Head down the dust
I seek what hurts
Im only satisfied with a broken lip
You know I need the whip
From a world of pain I scream her name
My mouth is bleeding from sucking the seeds of shame
Unholy dreams
The secret name
Ride like the devil
Down his black highway
From a world of pain I scream her name
My mouth is bleeding from sucking the seeds of shame
Peel my skin
Twist the pain
Feed the flame
Will I burn in hell?
Peel my skin
Twist the pain
Feed the flame
Will I burn in hell?
Face down in the dirt
I love all that hurts
Im only happy with a broken lip
You know I want the whip
Peel my skin
Twist the pain
Feed the flame
Will I burn in hell?
From a world of pain I scream her name
My mouth is bleeding from sucking the seeds of shame
