

# Hatesphere, Seeds Of Shame

Head down the dust  
I seek what hurts  
Im only satisfied with a broken lip  
You know I need the whip  
From a world of pain I scream her name  
My mouth is bleeding from sucking the seeds of shame  
Unholy dreams  
The secret name  
Ride like the devil  
Down his black highway  
From a world of pain I scream her name  
My mouth is bleeding from sucking the seeds of shame  
Peel my skin  
Twist the pain  
Feed the flame  
Will I burn in hell?  
Peel my skin  
Twist the pain  
Feed the flame  
Will I burn in hell?  
Face down in the dirt  
I love all that hurts  
Im only happy with a broken lip  
You know I want the whip  
Peel my skin  
Twist the pain  
Feed the flame  
Will I burn in hell?  
From a world of pain I scream her name  
My mouth is bleeding from sucking the seeds of shame
