

# Havana Brown, Spread A Little Love

Do you feel it?  
It's in the air tonight  
With every beating, with every step I come alive  
Like a rainbow, let your colors out  
And forever, lost in paradise

Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die

Heart's on fire, don't let them get you down  
Just stay higher, keep on growing with every sound  
Like a rainbow, let your colors out  
And forever, lost in paradise

Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die

We'll never die

Do you feel it?  
It's in the air tonight  
And forever...

Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die

We'll never die
