

# Hawksley Workman, Lethal And Young

it's been fun destroying our bodies  
it's been great just being together  
crash another car  
smoke another cigarette  
and make love to all our favorites on the radio  
'cause we don't know how to make it go  
we were only told how to burn it down  
and then skip town  
so don't look so damn tragic  
you knew this had to end  
so don't look so damn tragic in front of your poor mother  
she brought you here and now you have to stay.. to stay  
so be thankful that you're in love  
be thankful that you're in pieces  
'cause, baby, it's a begger being bitten by this bug  
after all you're all young  
you're all lethal and young
