

# Hawkwind, Free Fall (Long Version)

I'm getting ready to take one final leap into the air  
I got my straps all tightened up and I feel like I can't even  
Really care  
I'm all alone and I know that I can dare  
To be  
Free

That's because I'm in free fall  
Free fall  
An airborne  
Projectile!  
In free fall

Huh!  
Falling 32 feet per second squared  
Falling 32 feet per second per second  
Ah, the straps are all loose against my  
Body  
And the air is rushing past my  
Brain

I can't turn turn over and over  
And fall now  
Feeling  
All the clouds are drifting up  
Towards me  
Up  
Towards me up

I can feel the speed  
Building  
Aaaaah, the speed's building

All my face is drawn back in distortion  
Air pressure force my muscles to confuse  
I can feel the air pressure force my  
Smile  
Against my will it forces back  
Exposes my teeth to the wind  
And I'm falling...

And I'm in free fall...  
Free fall...  
Free fall  
Free fall!  
Free fall!

Oh, oh, uh-huh, oh!  
Oh  
Oh  
Oh

Falling!

Falling, feeling like a...  
The panic of the wind all rushing up  
Delay that second  
Delay that second!

Free fall  
Free fall  
Free fall  
Free fall...

Her it comes!  
I'm gonna pull the cord now

Feel the cord relax in my fist  
All I have to do is turn my wrist  
Pull the cord and the straps go  
Tighter!

I'm drifting...  
Drifting...  
Feels like I am lifting  
Canopy over my head  
Canopy over my head

Feeling with the wind  
And feeling with my own thoughts  
Filling up with colours  
All lighted up  
In my skull  
And I can hear the sound of the music  
Of the wind and the Spheres!

And the sky disappears  
And  
The  
Earth  
Is  
Rising  
Up to greet me

The  
Earth  
Is  
Rising  
Up to greet, greet me

And my feet  
Are going to land  
Are going to land  
Are going to land  
Are going to...

Touchdown  
Touchdown

Ah, Earth!  
Hello Earth  
Hello Earth!

(Hello)

Feels good  
Good to be back on Earth  
Feet  
Down  
Ground
