

Hawkwind, Valium Ten (Ext. Version)

(Spoken)

Now, I don't want you to panic
Just lean back and relax

(Dentists drill)

Aaaargh, aaaragh, aaargh....

When you start to think of it
She began to moan and shout
Riding in my car at night
She began to scream and fight
She began to moan and shout
When I got my valium out
When you start to think of it
She began to moan and shout
Moan and shout
Moan and shout...

(Repeats until end)
