

Hawthorne Heights, Cross Me Off Your List

don't let us concentrate on all those things you love to hate
it makes this all worth the wait
but causes us to separate

and i don't know how i should feel (i should feel)
these lies make it seem so real

can you see this or wear it on your wrist
it's everything you wanted
the mark you always missed
can you feel this cross me off your list
she's everything you wanted
the mark you always missed

with dry eyes, steady hands
i tried so hard to understand
why you left us all alone
three broken hearts with a broken home

and i don't know how i should feel (i should feel)
these lies make it feel so real

can you see this or wear it on your wrist
it's everything you wanted
the mark you always missed
can you feel this cross me off your list
she's everything you wanted
the mark you always missed

(cross me off - cross me off your list)

can you see this or wear it on your wrist
it's everything you wanted
the mark you always missed
can you see this or wear it on your wrist
it's everything you wanted
the mark you always missed
can you feel this cross me off your list
she's everything you wanted
the mark you always missed
