

# Hawthorne Heights, Decembers

Lets to try to remember these days back in December  
Our lives were very different  
I was lonely when we first met  
A small upstairs apartment  
Driving through the darkness before they even knew you were gone

You don't even have to speak because I can hear your heartbeat  
Fluttering like butterflies searching for a drink  
You don't have to cover up how you feel when your in love  
I'll always know im not enough to even make you think

Please slow down girl  
We're moving way to fast for their world  
We gotta make this last

I miss you so much, a self inflicted coma  
The days drag on I never thought of running with their feet  
And when i feel the stress, I'm lonely and depressed  
I picture you in the dress you wore four weeks ago

You don't even have to speak because I can hear your heartbeat  
Fluttering like butterflies searching for a drink  
You don't have to cover up how you feel when your in love  
I'll always know im not enough to even make you think

Please slow down girl  
We're moving way to fast for their world  
We gotta make this last  
I know it hurts to feel so alone  
I'm by myself, more then you can know

If only they were all alone...  
They were all alone...

Please slow down girl  
We're moving way to fast for their world  
We gotta make this last  
Slow down girl  
We're moving way to fast for their world  
We gotta make this last

I know it hurts to feel so alone  
I'm by myself, more then you can know

If only they were all alone...  
They were all alone...  
They were all alone...  
They were all alone...
