## Hawthorne Heights, Dissolve And Decay

She wore crushed velvet Jet black and to the floor She rode on angels wings That used to shine oh so bright

Now the dark has caught the spark in her eyes and I I can't find the air

(I'LL WAIT FOR YOU I CROSS MY HEART) Dissolve and decay There's nothing left for me (RIGHT NOW)

Walk slowly towards the light She's calling and I'm falling down She's crying (she's crying) and I am lying about last night She can't find a way to tell me And I can't find the air

(I'LL WAIT FOR YOU I CROSS MY HEART) Dissolve and decay There's nothing left for me (RIGHT NOW)

This fire's dying down There's nothing left to see (RIGHT NOW)

**RIGHT NOW!** 

Dissolve and decay There's nothing left for me

Sit back and let her die slowly Don't cry She didn't love you anyway

Dissolve and decay There's nothing left for me

Just try to make it out alive, yeah Alive means your blood is flowing

**RIGHT NOW!** 

Dissolve and decay There's nothing left for me (RIGHT NOW) This fires dying down There's nothing left to see (RIGHT NOW)
