

Hawthorne Heights, Four Become One

And you will live on
Our hearts will be stronger
'Cause we remain as one
We will last just a little longer
As we pull ourselves together
We cant help but be torn apart
And we will always have each other
Just like it was from the start

When five becomes four
And four becomes one
It's not just passing on
It's passing on all the fun we had
You made us laugh
We only cried but once
Your face will last
In photographs
On display for everyone

And the time has come now
We must figure out
Driving north or going south
Growing up or falling down
As we pull ourselves together
We cant help but be torn apart
And we will always have each other
Just like it was from the start

When five becomes four
And four becomes one
It's not just passing on
It's passing on all the fun we had
You made us laugh
We only cried but once
Your made us laugh
Your photographs
On display for everyone

The time has come now
We must figure out
How to be as one
How to be as one
