

Hawthorne Heights, Language Lessons

I hope this song can tell you how I feel tonight
You are my first dissection spilling my insides
Lets write our names with the blood that's in our cheeks
So it won't wash away if I don't come home for weeks

If I don't come home...

I never said (never said)
This would be easy
I let her go when she said she was leaving
So whisper softly
And don't forget
To tell me how you feel in 5 words or less

I knew I should have never offered you the world
The nights are full of faces you're the only girl
Save my world from disaster
Make my heart stop beating faster
Ask the question, here's the answer
I need you now and I can't stand this

I never said (never said)
This would be easy
I let her go when she said she was leaving
So whisper softly
And don't forget
To tell me how you feel in 5 words or less

Just tell me how you feel...
I need your voice tonight...
Just tell me how you feel...
Whoa, whoa...

So whisper softly and don't forget
To tell me how you feel in 5 words or less

I never said (never said)
This would be easy
I let her go when she said she was leaving
So whisper softly
And don't forget
To tell me how you feel in 5 words or less
