

Hawthorne Heights, Sandpaper And Silk

Wait 'til after dark
We'll try to make a mark
One that stays until we're done

And we'll pretend again
Lets try not to forget where we are
And who we're with
Who we will find.

Miles can cut this tie we've made
The sharp side of the blade
As these words play out
They'll try and drag you down
You feel like one of them

Who we will find

Miles can cut this tie we've made
The sharp side of the blade
Make sure that you can keep it
Make sure you keep it in your heart (2x)

Miles can cut this tie we've made
The sharp side of the blade
Miles can cut this tie we've made
The sharp side of the blade
Make sure that you can keep it
Make sure you keep it in your heart

Miles can cut this tie we've made
The sharp side of the blade (in your heart)
