

Hawthorne Heights, We Are So Last Year

We're falling faster
This is the last year
Just a few more hours
Until we are all alone
This never happens
Changing with fashion
Just a few more hours
Until we are all alone

I wish I could of known you better
I should blame it on the weather
This was over from the start
Does it even matter
Our situations getting worse

Sleep in(sleep in), and sleep well(sleep well)
With this life(this life), we're set to fail

I just wanted you to know
I think about you every night
When I fall asleep
You are in my dreams
And just like in a movie
The one you want to see
With a happy ending

This dead letter written on black paper
It never found in your eyes
Instead of love
She only saw dollar signs

Sleep in(sleep in), and sleep well(sleep well)
With this life(this life), we're set to fail

I just wanted you to know
I think about you every night
When i fall asleep
You are in my dreams
And just like in a movie
The one you want to see
With a happy ending

With this life, we are set to fail!
I just wanted you to know
I think about you every night
When I fall asleep

I just wanted you to know
I think about you every night
When I fall asleep
You are in my dreams
And just like in a movie
The one you want to see
With a happy ending
