

Hay & Stone, Last time around

In the late 20th century, we took our births and came round to see
what kind of things were going down, as it's our last time, our last
time around

Speed of light relativity took us far, rock was born and dead before
the cold war

But we need a revolution that breaks the ground for the last time,
the last time around

Last time around, Last time around

Hey now, come on all of you don't waste your times on worn out
yesterdays

Hey now, come on all of you don't waste your times on worn out
yesterdays

Bullet-torn rebels of the 20th century, Malcolm X, Luther King,
Lennon and Gandhi

Before the age of man there was a sound, for the last time, the last
time around

Last time around

Last time around
