

Hayden Panettiere, I Still Believe

Somehow I know
I will find a way
To a brighter day
In the sun

Somewhere I know
the he waits for me
Someday soon he'll see
I'm the one

I won't give up on this feeling
And nothing
could keep me away

Cause I still believe
in destiny
That you and I
Were meant to be
I still wish on the stars
As they fall from above
Cause I still believe,
Believe in love

I know what's real
Can not be denied
Although it may hide
For awhile

With just one touch
Love can
Conquer fears
Turning all your
Tears into smiles

It's such a wonderful feeling
I know that my heart
Can't be wrong

Cause I still believe
in destiny
That you and I
Were meant to be
I still wish on the stars
As they fall from above
Cause I still believe,
Believe in love

Love can miracles
Change everything
Lift you from the darkness
And make your heart sing

Love is a river
When you fall
It's the greatest power of all!!!

Oh I still believe
in destiny
That you and I
Were meant to be
I still wish on the stars
As they fall from above
Cause I still believe,
Believe in love

Yes I still believe
believe in love!
I still believe in LOVEE!!!
I still believe, believe in love...
