

Hazel O'Connor, Never Thought

Hazel O'Connor - Neil O'Connor

See the flames they glow over the sky line
See how far they shine
Feel this heat it grows
Feel this heat it shows

Never thought that this could happen here
Never never not this way
Never thought that this could happen here
Never never not today

Hear the news, a whole nation is rising
Hear one voice they cry
Time to stand, stand up
Time to change the tide

Hold me close, close, close your mind
Hold me close, don't go outside

Please don't go out tonight
Please don't go out
Please don't go out tonight
Please don't go out
