Hazen Street, In Memory Of

I don't remember much today

My memories of you are so vauge

But I will say, I feel you watching over me now

I hope that I've made you proud

'cause I remember how you cared for me I was only three.

Still I wonder how my life would be

I wish that you were here with me now

Somehow, would it be that same

To all my friends who passed away

Friends and family

Memories will never fade with me

And I will never forget you

You'll never die as long as I'm alive (repeat)

I never thought I'd be writing you this

Man, I'm feeling such a pain, and emptiness and the loneliness

It's gotten me thinking about all the good times

I know you're still by my side, cause

You never let me down, I never let you down

Always knew how to put a smile on my face,

How can I make you proud, Honor you no doubt

I'd do anything if I could bring you back, I'd bring you back now!

To all my friends who passed away

Friends and family

Memories will never fade with me

And I will never forget you

You'll never die as long as I'm alive (repeat)

I wish you were here with me

I wish that you were by my side

I know you're watching over me now

So I will live my life

To all my friends who passed away

Memories will never fade with me

And I will never forget you

You'll never die

To all my friends who passed away

Friends and family

Memories will never fade with me

And I will never forget you

You'll never die as long as I'm alive (repeat)
