

# Head Automatica, Egyptian Musk

There's a suicidal Taliban on the cusp  
Egyptian musk, Egyptian musk  
When the village came with fire, you were hiding on the right  
We knew you might, the blood of Christ  
I tell you lies, I have found  
I've seen a million religions on the ground  
There's a suicidal Taliban for talent on the cusp  
Egyptian musk, Egyptian musk

Is that your love down on the ground?  
I see forever coming down  
Look around, look around  
It makes everything okay

So celebrate the ignorance  
And drizzle it in violence  
And pledge a sore allegiance with every auto and appliance  
Because they win if we don't go about life like we should  
I knew you would, I knew you would  
I tell you lies, I have found  
I've seen a million religions on the ground  
There's a suicidal Taliban with talent on the cusp  
Egyptian musk, Egyptian musk

Is that your love down on the ground?  
I see forever coming down  
Look around, look around  
It makes everything okay

Is that your love down on the ground?  
I see forever coming down  
Look around, look around  
It makes everything okay

Where does your high school stand?

Lies, I've seen a few  
I've seen a million, in a nation, in a feud  
So if happiness is knowing, then knowledge I have not  
We knew you'd pop, your head went pop

Is that your love down on the ground?  
I see forever coming down  
Look around, look around  
It makes everything okay

Is that your love down on the ground?  
I see forever coming down  
Look around, look around  
It makes everything okay
