

# Head Control System, Rapid Eye Movement

I am the answer to the question, question and why is that?

In order to learn you must read it backwards, fucker (is heard played backwards)

Gotcha!

I am the father and I am the son

I am the holy womb and I resurrect from the tomb

And I am (x6) in heaven... or am I in hell

Or do I care, at least I'm sane

I'm a bird, and I'm free

So come on, look at me now cause I'm out of this world

I'm taking you down with me (x2)

Cause I've had it

I am the storm and I am cool

And I am (x3) (every thought, all your fear)

I am the one in every door

You know what I am

I am watching all

I am the key, the first, the last, the lust

Out of time and out of space

I am the drug

I am the body and I am the work

I am the written word and you'll find me in a book.

Open, close the cover over, under.

I'm taking you down with me (x2)

Cause I've had it

I am the storm and I am angry

And I am. (x3) (every thought, all your fear)

I am the door in everyone

I am the masterplan, I am the fall

I am the meal, this is all you own

I am low, I am cold

And yes, all your...

I'm taking you down with me (x2)

Cause I've had it

I am the storm, a world-wide hurricane

I am sweeping across the imaginations
