

Head East, Call To Arms And Legs

The time has come to rise up shouting
The world is dying and it needs our help
Let's stop the cars that keep on spouting
And turn to our bodies and make them well

Consumer crazied crowds keep on buying
Pieces of an earth that's going fast
What I'm saying is you better start trying
Your arms and legs because they've got to last

It's not too long til the gas is gone
And pure water is all dried up
Then we won't be the only ones
Cryin' in our empty cup

What I'm saying is pretty clear
It's a record of total abuse
You better stop preaching and listen here
Your arms and legs are gonna get some use

It's a call to arms and legs
It's about time we quit foolin' around
It's a call to arms and legs
Better get'em ready, hear the bugle sound
(Repeat 2 more times)

Better get'em ready, hear the bugle sound
Yeah
It's a call to arms and legs
It's about time we quit foolin' around
It's a call to arms and legs
Better get'em ready, hear the bugle sound
Whaaa
It's a call to arms and legs
It's about time we quit foolin' around
