

Head East, Got To Be Real

Sweet little missy in the moonlight
The one in the front of my mind
You are the one I believe
I've been hoping to find

Pretty little missy in the moonlight
The one who's makin' me shake
To love you would be so easy
To please me you don't have to try

It's got to be real
Didn't know how good it could feel
This time nobody's goin' to steal
Sweet lady of mine, it's got to be real

Sweet little missy in the moonlight
You with the big brown eyes
They'd have to put me in jail
If I made you cry

But you're just what I've been missin'
Your smile is breakin' my heart
To win you, I'd do whatever it takes
To have you would change my life

Chorus

Waitin' on you for so long
Holdin' out til you came along
Waitin' on you for so long
Holdin' out til you came out
Waitin' on you for so long
Holdin' out til you came along

Repeat Chorus twice
