

# Headnoise, They're Trying to Kill Me

They're trying to kill me, they're trying to kill you,  
our generation they're trying to kill them too.

Turn off you brain forget what they told ya, your smarter then God,  
It's garbage they sold ya, freak of nature, evolution mistake,  
nihilism rules, in the modern age, forty million dead by Roe vs. Wade.  
killing us babies just part of the game, drugs and suicide,  
tools in your hand, exterminate us anyway you can

Your trying to tell me that my God is dead  
You've been deceived there's rocks in your head  
I stand defiant I refuse your you lies  
I choose to follow God I am alive (repeat)

God loves me  
God loves you  
Our generation  
God loves them too
