

# Headstone Epitaph, Searing Eyes

[Tim: i was looking for a riff that was classic speed metal.]

[The song's About people WHO hypnotize you with their searing eyes]  
[and how impossible it is to see what's behind them.]

[vers:]

you sear with your eyes on my skin

I feel the pain although

I'm so afraid but

I still feed your flame

[ref:]

searing eyes

searing eyes

[vers:] your touch on my skin

like a burning laser blade

destroying deadly lips

praying it's not to late

[ref:]

searing eyes

searing eyes

searing eyes

[vers:]

you're playing your role

with devotion so real

that i can't feel

your emotion
