

Headstones, Devils Road

Devils Road

V1: □down the devils road
i walk every night
no light to show the way
into the darkness
i will go forth
drawn to the night never the day

V2: □mean people despise of me
some only ignore me
and yet others fear me
for they don't understand what i see

CH: □down the devils road
i walk all my nights
down the devils road
i see dark sights
down the devils road
i walk every night
down the devils road
full moon shines so bright

down the devils road
spells by candle light

V3: □black magik devours my soul
evil rules my mind
there is no limit for me
or for any of my kind

V4: □Death is my life
it is all i know
i will reveal in the end
for i walk down the devils road once again

CH: □down the devils road, i walk every night
down the devils road, in the full moon light
down the devils road, to hell's gates
down the devils road, i can not escape
down the devils road,
he just opened his gates
let me in
