

# Headstones, Its All Over

It's All Over

Over the moon, and over the top  
and over the people, yeah, who told you to stop

It's all over, It's all over,  
Just like I told you, It's all over

Over the sky, and into the future  
You do you what you can in this world  
You do just what suits you

It's all over, It's all over,  
Just like I told you, It's all over

Walking hand in hand, with my addiction

Think I'd twist and turn, well I ain't built to burn  
You think I'm swining, but then I kick, ugh!

You're Under my skin, between the breaths  
You're trolling for friends in a ghost town, it's called uselessness

It's all over, It's all over,  
Just like I told you, It's all over

Walking hand in hand, with my addiction
