

# Headstones, Smile And Wave

Billy's got a PhD and Sara she's a teacher  
They love to rock'n'roll and blow their brains out on the weekend  
Together they have built a world a lot of it is real  
We are here to ease them through the parts they can't conceal  
I smile & wave

Now they're swearing up and down they're coming off so clean  
Surely they will fall to their doom  
Another inch closer, closer to the railing  
And nobody here is ever fooled  
I smile & wave

A lot of rain and fancy coffees best-suited couple I know  
The spent everything that they've ever harnessed  
Now tell me how is your happy home  
I smile & wave
