## Headstones, Smile And Wave

Billy's got a PhD and Sara she's a teacher They love to rock'n'roll and blow their brains out on the weekend Together they have built a world a lot of it is real We are here to ease them through the parts they can't conceal I smile & amp; wave

Now they're swearing up and down they're coming off so clean Surely they will fall to their doom Another inch closer, closer to the railing And nobody here is ever fooled I smile & Damp; wave

A lot of rain and fancy coffees best-suited couple I know The spent everything that they've ever harnessed Now tell me how is your happy home I smile & Damp; wave
