

Headstones, Whatchagonnado

I live my life incompletely
Scapegoats have never failed me
I live my life incompletely
Scapegoats have never failed me

Chorus:

Whatchagonnado now that she's gone?
Whatchagonnado now that she's gone?
Whatchagonnado now that she's gone?
We're gonna drink fight party rock all night long

Day to day and hour to hour
Minute by minute, right down to the second
Excuses, my only friends
Have returned to save me once again

(chorus)

Whatchagonnado, whatchagonnado, whatchagonnado
Now that she's gone?

You know I'm not courageous
Absolutely faithless
Particularly shameless
Now that she's gone, now that she's gone

I live my life incompletely
Scapegoats have never failed me
I live my life incompletely
Scapegoats have never failed me

(chorus)
