

# Heart, Christmas Waits

Christmas Waits

How long have I been watching from my window

Running through my life

Watching it all go by

Seems like I've always got a destination

Running down the time

Pushing to the front of the line

I wanna be where the snow is falling

Voices of friends like angels calling

(Out in the pines - oh beautiful tree)

I wanna be there where

Christmas waits for me

Christmas waits

Gather round the fire let the weather rage outside

Christmas waits

I always will be welcome for the rest of my life

Christmas waits
