

Heart, Desire Walks On

Stand at the window
Pull back the lace
I feel the night wind on my face
All that I long for - all that I crave
Am I master, Am I slave?
The night's so still
I feel the lovers out in the hills
The breathing of young girls lying in bed
Visions of love in their heads

Desire walks on
Desire walks on

A beautiful boy gazed in a pool
His eyes looking back like jewels
The call of the mirror - too strong to resist
The call of the water - the call of a kiss

Desire walks on
Desire walks on

It wants to be held - possessed
It wants consummation
It moves on obsessed
Blodstream through pipes
Singing in the wires
Heat - motion - control
Desire walks on

Stand at the window
The world is so still
Calling you back by force of will
Where did you go?
I don't know why
Too much longing inside
You wrapped me in nighttime sexual disguise
I was the love in your eyes
You took me over
My innocence cracked
You own my passion
I want you back

Desire walks on
Desire walks on
