

# Heart Evangelista, A Little Bit

I was kinda hesitant to tell you  
Should I let you know  
I was never really like this before  
Need I say more

Or maybe I'm confused when you are near me  
I don't know what to do or I should be  
There's only one thing in my mind  
That's you and me

[Chorus:]  
I'm a little bit of crazy  
I'm a little bit of a fool  
I'm a little bit of lonely  
I'm a little bit of all  
Oh, I need a cure  
Just a little bit of you  
And I will fall

I'm always on the run to see you  
Would you allow me to  
It wasn't my attention to hurt you  
This feeling is true

Or maybe I'm confused when you are near me  
I don't know what to do or I should be  
There's only one thing in my mind  
That's you and me

[Chorus:]  
I'm a little bit of crazy  
I'm a little bit of a fool  
I'm a little bit of lonely  
I'm a little bit of all  
Oh, I need a cure  
Just a little bit of you  
And I will fall
