

Heart, Move On

Talk talk talk people are hammering in my brain
Say so much nothing it's making me insane
Telling out those rumors its gonna get hard to take
Goes on and on what you gotta tolerate
But never you mind ~ hey, don't waste your time

(chorus)

Move on ~ let it ride
Move on ~ leave it all behind
Shine it on ~ shine your light
Don't look back just leave it all behind I'll see you some other time
Move on

Them friends of many are really known by none
Forever high school jealousy 101
Make so much misery in this clich town
They just love to get it up for the big let down
But never you mind ~ hey don't waste your time

(chorus)

See you on the flipside
