Heart, Rockin Heaven Down

Step into the light Your on Hook into the night That look from eye to eye A flash gets passed around A band of wild angels Rockin heaven down

Roll, roll, roll Roll out the soul You get that feel And everybody knows You're moving their minds Moving their minds around Rockin heaven Rockin heaven down

You step into the night On your way back home What a scene it was tonight I'm so glad I'm not alone

That look in your eye Makes me come unwound Come on baby let's go Rockin heaven down

Roll, roll, roll Roll out the soul You get that feel and everybody knows

You're moving their minds Moving around Rockin heaven down Rockin heaven down

Rock me home Rock me home
