

Heather Nova, Drink It In

Thanks to Bajo Philip for submitting the lyrics

How many days are left
And what to spend them on
Should I keep working
Or sit and marvel at the sky
I think about your skin
Your fragile skin
The heaven of life we're living in

Drink it in, drink it in deeper
I pray a life your soul to keep
Drink it in, drink it in
Pink clouds scatter
My heart beats clear
For all the hearts that I hold dear

Drink it in, drink it in deeper
I pray a life your soul to keep
Drink it in, drink it in deeper
I pray a life your soul to keep
Drink it in, drink it in
Oh, drink it in, drink it in
