

# Heather Nova, Help Me Be Good To You

Here in the light of late afternoon  
Sun in the water, I'm thinking of you  
How we've become too far to be drifting apart  
All this distance we're losing, I know it's my fault  
But I think that I love you  
I know that I do  
I just need you to help me,

Help me be good to you,  
Help me, help me be good to you

I don't know why I can't settle down  
Something from my childhood I still haven't  
Found  
And I don't want to hurt you  
With all my longings and my doubts  
Just the way I need to feel free I can see  
How it brings you down

But I think that I love you  
I know that I do  
I just need you to help me,

Help me be good to you,  
Help me, help me be good to you
