

Heather Nova, I Wanna Be Your Light

Nothing's promised in this life
So I'm thankful that we're here tonight
Take my hand and let's look up
At the stars
We can make them ours

I wanna be your light
Let me be your light
I'll light your way
'cross the Milky Way

I wanna be your star
Let me be your star
I'll light your way
'cross the Milky Way

I don't wanna see you cry
All that pain you hold inside
Life is waitin', don't forget
You are free, I'll help you see

I wanna be your light
Let me be your light
I'll light your way
'cross the Milky Way
I wanna be your star
Let me be your star
I'll light your way
'cross the Milky Way

There's no time in life to judge
Only time enough for love
So as another night slips by
Let us dance beneath the sky

I wanna be your light
Let me be your light
I'll light your way
'cross the Milky Way
I wanna be your star
Let me be your star
I'll light your way
'cross the Milky Way

I wanna be your light
Let me be your light
I'll light your way
'cross the Milky Way
('cross the Milky Way)
