

# Heather Nova, Welcome

I see you standing in the doorway  
A shadow in the sun  
I'm reaching out to touch you  
Is it better when you know  
That you're not the only one  
That I can hear you

And there's so much I can do for you  
Give it time, I know that I can prove  
Now my world is offered out to you  
Let it fly

And I say (welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside (wel, wel)

I see you picking up the pieces  
The pieces of a dream  
You tried to build around you  
I know you're looking for a reason  
A reason to believe  
Now I found you

And there's so much I can do for you  
Give it time, I know that I can prove  
Now my world is offered out to you  
Come inside

And I say (welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside (wel, wel)

Come inside

There is so much I can do for you  
Give it time, I know that I can prove  
Now my world is offered out to you  
Come inside

And I say (welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside (wel, wel, welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside (wel, well, welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside, Yeah, yeah (welcome)  
To my life (welcome)  
To my world (welcome)  
Come inside (wel, wel)
