

Heather Nova, You Left Me A Song

Thanks to Bajo Philip for submitting the lyrics

Out of the glitter and the shine
Out of the corner of my eye
Saw you walking I freeze the frame
My luck again

We could've been strangers if we tried
Move to the rhythm side by side
Maybe a glance across the room
Blue moon

Why did the hours burn so long
Sunset and shadows cold
I hear the music playing on
I know you're gone but you
You left me a song

Under the skylight after dark
Creeping to find you, what a luck
We were like children stripping down
The joy we found
But even the lights that turn me on
Make it so hard to see beyond
Make it a rainbow in my mind
This borrowed time

Why did the hours burn so long
Sunset and shadows cold
I hear the music playing on
I know you're gone but you
You left me a song

Oh you left me
Oh oh, you left me
A song

Why did the hours burn so long
Sunset and shadows cold
I hear the music playing on
I know you're gone but you
You left me a song
You left me a song
