

# Heaven's Gate, Worldmachine

(Words: Rettke/ Music: Hunecke-Rizzo, Rettke, Paeth)

When darkness changes into light  
The sense of dream and day unite  
A skin of steel, a focus view  
Cold eyes are zooming into you

Lost horizons, planet earth  
A different paralizing world

Beyond the world and machines  
A dream is not what it seems  
They are protectors of time - lost in time

They are watching every single step  
Beware the electronic traps  
Spinning nets with rapes of souls  
They kill your mind with just one goal

Lost horizons, planet earth  
A different paralizing world

Beyond the world and machines  
A dream is not what it seems  
They are protectors of time - lost in time
