

# Heavenly, Farewell

And there's no easy way out to flee the pain  
Still hold a place for you in my heart  
I'll go somewhere on my own  
Just somewhere I belong  
Somewhere out there for me

I sometimes felt that my life was a misery  
I couldn't find my place here ending my destiny  
Don't say a word, don't try to step me  
So do you realize that I am already damned

Towards the land of far away  
Lighting up the sky  
There's nothing here to celebrate  
Silence's reigning in the wild

So I am a vagabond riding the universe  
Diving into eternity  
I am bidding you farewell  
Cause I will never back again

And if the night belongs to lovers  
The twilight belongs to me  
I carry on all alone but my soul still remains  
Singing loud to save my honour  
Delivery is near  
Passing through the stars forever we are free

And there's no easy way out to flee the pain  
Still hold a place for you in my heart  
I'll go somewhere on my own  
Just somewhere I belong  
Somewhere out there for me

Solo: Corbiaux / Lapauze

And there's no easy way out to flee the pain  
Still hold a place for you in my heart  
I'll go somewhere on my own  
Just somewhere I belong  
Somewhere out there for me
